

POLITICA DELLA QUALITÀ

The CEO of Safit Srl has always believed that the quality of its products was the basis of the company's commercial success.

The Management therefore considered it appropriate to establish, maintain and document a Quality Management System, integrated with the current management system of the Company, in compliance with the UNI EN ISO 9001: 2015 standard.

The fundamental principles of Safit Srl's Quality Policy are expressed below:

- Identify and continuously monitor the needs and expectations of customers;

Conceive,

- Develop and manage the production process in order to identify the risks to prevent accidents;
- Guarantee all workers the opportunity to work in a suitable environment that complies with current safety regulations;
- Systematically review the efficacy and efficiency data of the Quality Management System;
- Provide a system for identifying and planning the improvement objectives of the Quality Management System, using risk analysis tools, in which all company personnel are involved and guaranteeing systematic control of the implementation phases;
- Identify and ensure compliance with applicable regulatory and legal requirements;
- Maintain fruitful relationships with the Stakeholders identified in the context in which the Company operates, so that company performance is continuously improved also in relation to environmental, health and safety needs at work, in terms of social responsibility and the development of resources of the territory.

To ensure the application and maintenance of the requirements that make up the Quality Management System, the CEO invites all staff, each for their own skills, to achieve the quality objectives set out in this declaration.

The Quality Management System therefore provides that everyone is trained to carry out their duties correctly and requires the maximum participation of all.

The Chief Executive Officer commits himself directly to the achievement of the aforementioned objectives by making the appropriate human, technical and economic resources available, compatibly with the company financial statements, in the belief that these guidelines will produce results capable of positively contributing to the improvement of the popularity on the market.

Finally, since the needs of the market as regards the Quality of services and products are not static but change over time, the Management of Safit Srl undertakes the task of carrying out, at least annually, a review of the Quality Management System, for verify the adequacy of the System over time with respect to these needs.

The Direction
Denis Venezian
